Bower-Bir, J. S. (2022). Desert and redistribution: Justice as a remedy for, and cause of, economic inequality. *Policy Studies Journal* 50(4): 757–795. https://doi.org/10.1111/psj.12439

Every cell as it should read, re-estimated from the survey data in R and in Python with identical results, followed by Table A1, the cell shares behind Figure 4, and the eight regressions behind Figures D1 and D2. Coefficients that round to zero keep their sign. The constant is the grand-mean intercept, as Stata reports it; its standard error is an approximation and may differ from the published value in the third decimal.
